Having scalped the Beancaters twice on the preceding afternoon, the Detroits run in the last inning of a well played yesterday strolled out to the American game today. The score: League Park, nearly an hour behind time where Jimmy Manning's proteges were waiting to wallop them good and hard The Lake Shore men rode into the grounds in their chariot about 5 o'clock. having missed their train at the Monu-mental City. They immediately dorned mental City. their baseball togs and in a few moments were ready for action. But Manager Manning had given the Senators a stiff calldown for their performance on Mon-day and told them that if they did not boost themselves into a better class of ball tossers that there would be a decided slump in the size of the roll in their envelopes on Saturday. Bill Clarke took the hint and the tip was passed around to all the players, so they all went out on the field, bright and early, so early in fact that they were almost played out when the belated Detroits arrived or the battle ground.

As it was very late when the play began the Senators knew the game could not last very long, so they proceeded to get together and hold a conference. Bill Clarke sent out scouts to get inside in-formation regarding the enemy's strength in the box, and one of them returned a little later with the news that a big hefty lad was to be sent out to the rubber. Looking over his dope book of his wards

Manning found that Carrick had been bowling them over in great style for the last five or six games he has figured in, and, having no other old war horse to send in, he asked Wee Willie if he did not think it was about time for him to be getting another floral tribute from some of his admirers. Willie replied that he had forgotten all about that, and if it pleased Jimmy to put him in, why it fairly tickled him to death. Carrick took his stand in the box and began to shoot the shoets over to the visitors in approved style and when the game was called the hit column of the Michigan lads showed that only six impressions had been made in it, while their run alley yielded only the figure 1.

The visitors got one of their hits in the

initial inning, three in the second-the only bad inning Carrick had, and the only one in which the Tigers did any business with his benders one in the third and as many in the fifth. They solitary run in the second when Dillon singled to centre and Cronin came to the front and laid his weight against a "floater" and sent it soaring into left garden, moving Dillon to the terminal, while he skedaddled over to the third portmanteau. But after Cronin arrived there pulled off an old, old stunt that has ofttimes been repeated, but it should be rarely seen with two men on the coachtimes been repeated, but it should be rarely seen with two men on the coaching lines to advise the runner. In returning the sphere to the infield the ball was thrown to our tricky third baseman and he promptly did a little sleight-ohand work, his hands moving faster then coachers eyes, and showed the ball up under his arm and assumed as position as if there were nothing wrong. Carrick was standing in the box as if he were about to toss the globule over, and Cronin cased off the ottoman hightly, but enough to get him caught, and he returned to the bench amids the jeers and howis of the populace. Immediately after he was put out, Barrett lined a long hit into centre field, and had Cronin not been put out he could have ambled home with a run to his credit.

In the second inning when Wee Willie appeared at the plate to see what damings he could do to the horsehide he was presented with a large floral design in the shape of a horseshoe, and to show his appreciation he promptly fanned out without having hit as much as a foul Up. After this there were no more presentations.

tions.

The Manningites secured their first run in the first round when Dungan hypnotized Cronin and drew a base on balls, and Clarke singled to right field, advancing him to the second snag on his journey. Grady was slated to drive the leather out of bounds, and after swatting it dangerously near the fence, but about it dangerously near the fence, but about two feet outside the foul line, he com-promised on a long hit to right field,

promised on a long hit to right field, scoring Dungan.

In the third Sammy, the cigar store proprietor, again started the ball rolling. This time he rolled an easy one to an infielder and beat it out to the premier hassock. Clarke picked out a nice one and slammed it over the second cushion. Michael Grady then waxed a hot one out to left field, and Dungan again crossed the rubber. Colonel Clarke advanced to station No. 3 on the bit, and as the Tigers' catcher threw to second to catch Grady the colonel also glided over the finish line.

finish line.

Once again Sammy broke the monotony of the proceedings. This time it was it the fifth, when he singled to left field an advanced ninety feet on Clarke's sacrifice. Gear then lambasted a hot one interight field, and Sammy did the honor for his third time. This closed the performance.

Chronic Ulcers Eating Sores

That Breed and Foster the Germs of Cancer-

Plague Spots the Outgrowth of Diseased Blood, and a Constant Drain upon the System.

An old sore or ulcer is not only a source of great bodily discomfort and pain, but the constant care, worry and anxiety over one of these malignant festering places produces an unhealthy state of the nervous system and the patient becomes morbidly sensitive, miserable and gloomy. No one could be otherwise when haunted by the presence of an inflamed, angrylooking sore, with a continual discharge, carrying with it the life fluids, thus robbing the body of strength and vitality. An eating, lingering ulcer naturally fills the sufferer with fear while noting the daily growth of the sore, from which there is a slow but perpetual discharge of yellow or greenish watery matter, and feeling the dull, throbbing or sharp shooting pains as the poison penetrates the tender tissues and reaches the bone.

All slow-healing, stubborn sores are dangerous. The same germ-producing, cancertainted blood is back of every sore or ulcer, large or small, that does not promptly and permanently heal; the little blister upon the lip or tongue, the warty growth or mole upon the cheek

and other parts of the body, About a year ago I wrote the Medical Department of your company to ascertain whether or not your S. S. S. would cure Cancer, as my wife had one on her breast, which three or four of the best dectors at Creston, Iowa, advised her to have cut out or romoved with a plaster. Upon receipt of your letter, I bought five bottles and she commenced to take it, and in less than eight months she was cured. I did not write you until now because I wanted to see if the cancer would come back again. There are no symptoms or signs of a return and I write in order to let others know what a wonderful medicine your S. S. S. is. My wife used just 17% bottles, but the Cancer was cured after she had taken 12 or 14. I feel as though your S. S. S. could not be too highly recommended.

G. E. BIMEGAR, Thayer, Iowa. and the almost imperceptible tumor or lump upon the breast, as often result in Cancer as the deeper and more frightful-looking ulcers. They feed upon the same morbid and destructive materials that are generated within the blood, and inflammation and destruction of tissue will continue just so long as this impure matter is carried through the circulation to these old sores and ulcers.

G. E. BIMEGAR, Thayer, Iowa.

Six years ago my leg from the knee to the foot was one solid sere and very offensive. I spent over \$1,000 on two trips to Hot Springs. Local physicians treated me to no purpose. I had about come to the conclusion to have my leg amputated when a friend induced me to try S. S. S. I began to take your medicine, and in seven months it completely cured me. I consider S. S. S. the grandest medicine the world has ever known. My case is a witness today as to what S. S. S. will do when taken regularly. I have gained 20 pounds. I write this to show the company my appreciation of their wonderful medicine, and I am ready to write a letter at any time to any one wishing further information. J. B. TALBERT, Winons, Miss.

Washes, salves, nor anything else applied directly to the sore can do any permanent good; neither does the use of the knife or flesh destroying plaster cure, for local causes have nothing to do with these germ-breeding plague spots. You might cut out every particle of the diseased flesh and scrape the bone, but another sore would come. The germs or poison in the blood must be destroyed, the stream of sluggish, polluted blood purified and made strong before the healing process begins and the sore or ulcer can get well. S. S. S. is the only remedy known that can and does accomplish this. It cleanses and purifies the circulation, and when new, rich blood is carried through the little veins and arteries to the sore, it brings about a healthy healing around the edges, and a permanent and thorough cure is soon effected. S. S. S. not only

expels all impurities, but works a complete and radical change in the entire system by stimulating inactive organs, toning up the nerves, increasing the appetite, and aiding the digestion and assimilation of food, thus building up the weak and wasted constitution. S. S. S. is strictly and entirely a vegetable medicine, and no bad effects follow its use, and for this reason it is better than Mercury and Potash or other minerals, which not only ruin the stomach, but often produce most stubborn

and offensive sores themselves. Prompt treatment should be given a sore or ulcer, no matter how small it may be, whether external or internal, for what you think a simple sore, may, in reality, be an undeveloped Cancer. Our physicians will gladly advise all who need their services, and those who write us will receive valuable suggestions regarding the treatment of their case free of charge.
